EUCROWD project

EACEA Monitoring visit, 1 December 2017

The project "European Citizens Crowdsourcing – EUCROWD" has been funded with the support of the Europe for Citizens programme of the European Union.

www.inepa.si/eucrowd/

Co-funded by the
Europe for Citizens Programme
of the European Union

1 Project aim

- The European Citizens Crowdsourcing (EUCROWD) project aims to raise awareness of the possibilities and to develop the skills at national and European level for using innovative channels of e-participation of citizens in politics and policy with a focus on the application of crowdsourcing in fostering a democratic debate on the future of the European Union.

2 Project goals

- (1) To organize in a methodological way 7 public events in partners countries and concluding Brussels conference.
- (2) To create an online repository (Knowledge centre on Digital Democracy) on citizens-crowdsourcing.
- (3) To provide policy recommendations on how (online) crowdsourcing can support debate on the Future of Europe.
- The project has an ambition to further evolve as sustainable partnership of civil society to advocate digital democracy at the EU level.

3 Project activity plan

- Organizing 7 national events and a concluding conference in Brussels.
- Desk research and collecting primary/secondary sources on citizens crowdsourcing for the purpose of an on-line repository (Knowledge centre on Digital Democracy).
- Analytical work for preparing policy recommendations on the EU perspective of crowdsourcing including the framework for the crowdsourcing pilot at the EU level.
- Civil society community building in the field of citizens crowdsourcing as part of long term digital democracy strategic initiative for non-governmental organizations.

4 Project time frame & consortium

- Project time frame: 1 September 2016 – 28 February 2018. Duration in months: 18.
- Project identifier: 577356-CITIZ-1-2016-1-SI-CITIZ-CIV.

Množično sodelovanje ljudi pri odločanju koristno, a ne sme postati nadomestek učinkovite politike

Ljubljana, 26. oktobra - Množično sodelovanje ljudi oz. crowdsourcing je lahko na različnih področjih uporabno in koristno, saj omogoča neposredno vključevanje v odločanje. Ne sme pa postati mehanizem, na katerega bi politika prevalila del odgovornosti, so poudarili sodelujoči na panelu o množičnem sodelovanju in demokraciji. Izpostavili so pomen dobre informiranosti.

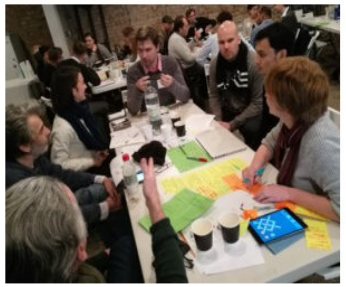
Reports

cases, considerations, crowdsourcing, Demsoc, digital democracy, ECAS, findings, INePA, London, Manabalss, meetup, politics, report, SCIFY, workshop



The second EUCROWD public event took place in London on 9 February 2017. The international workshop and meetup "Taking control of politics: can digital democracy help?" brought together **35 citizens from 15 different countries**. Event focused on discussing social, political and technical aspects of citizens crowdsourcing in policy-making in different European countries and at the EU level.

A few impressions from our 7th EUCROWD international event in Riga. Discussions could not avoid the basics of how we understand and practice democracy in everyday life 🙂 Its also important that digital tools for people participation have an impact on decision-making. We also find out that there is no simple solutions to select the platform but watch out for trolls and give the option for anonymity!
