

EUCROWD

Konferencija o mogućnostima financiranja projekata u sklopu programa Europa za građane

(25. siječnja, 2018, Zagreb)

panel rasprava

„Od naših ideja do bolje Europe“

European Citizens Crowdsourcing projekt

Mag. Simon Delakorda, Inštitut za elektronsko participaciju

www.inepa.si/eucrowd/

Co-funded by the
Europe for Citizens Programme
of the European Union

(1/4) Why and how it happened?

- 15 years of experience with project applications including the first appearance as partner in EfC program in 2012
- connections with similar organizations at the EU countries
- e-participacion is EU topic (included in 2016 call)
- discussing an idea with the European Citizens Actions Service in Brussels
- strong partnership, innovative topic attached to EU challenges, useful results

(2/4) Innovativeness

- Raising awareness and to develop the skills for using crowdsourcing in fostering a democratic debate on the future of the European Union.

(3/4) Challenges

- pre-financing issues (financial guarantee needed)
- unresponsiveness of the EACEA during summer months to address the issue
- one partner did not attend the kick off meeting
- cultural differences in the EU (e.g. disadvantage participants assessment in the UK, French writing reports in their language)

(4/4) Key takeaways

- Travelling
- Management
- Heart

A small NGO from a small country can manage the Europe for Citizens project consortium if it has...

...a big heart for what it does!

THANK YOU!
