

Co-elaborate the law at the digital era
An ambitious challenge within everyone's reach

Let's get started

2008

“We really need to think over again about the way we make laws in this country.”

On the launch pad

2012

Working hard on the launch of *Parliament & Citizens*.

“The law is the expression of the general will. All the citizens have right to contribute personally or by their representatives, in its formation.”*

- 1789 Declaration of the Rights of Man and of the Citizen

* 577 congress(wo)men, 348 senators.

Our methodology

Drafting the bill

Naive
Idealistic
Will never work

The 2013 prophecy of a founder :
« Know what? One day, this will be used by the PM himself »

... but still

June 2013

A pharmaceutical laboratory asks for a similar consultation platform to P&C for internal use.

October 2014

The FR Digital National Council runs a public consultation with P&C technology, on PM's demand.

January 2015

First-time ever consultation with P&C technology run by a ministry (Education).

September 2015

PM unveils the “Digital Republic” draft bill consultation with P&C technology.

21,000 participants / 8,400 proposals / 147,000 votes

4 brand new articles / 90 articles edited

Mise
en réseau

... today, more than 250,000 citizens are participating to collective thinking or projects under the P&C technology, now powered by Cap Collectif.

2016... speeeding up

Congressman Patrice-Martin Lalande has submitted a bill aiming to constrain the government to run a public consultation for any draft bill beforehand it goes to the Parliament.

Current status :

- +50 members of the Parliament, left or right, have called for this new law to be discussed.
- 1 positive notice from the government to open it to its agenda from now to the end of the year.
- public declaration of interest by the PM and the President.

2017 ... ambitions

- new areas to explore: universities, trade unions...
- going deeper in transforming processes: full participatory budgets, full public policy cycles...
- new territories: Europe, World, Milky Way...

Thank you very much!
